Experience has a video link that doesn't work

2013 NNMF water marks on images - can this be re-cropped to remove this?

Title Block/Header – Can the images resize based on the computer screen? Dimension? See Below examples

Missing text to the right

Google Analytics – need to make sure on the final site…

Texture – The white boxes for content and purple boxes are very plain – can we add some texture to these like in the original frequency theme example? That's where we were going with the borders – just something more than the plain box edges. IS THIS A POSSIBILTY?

FESTIVAL

How do we easily add blog posts? – The first one should be the video.

Camping

- We need to remove some text from here is it best to do ourselves?
